Peep supports all parents and carers with children from pregnancy to school, in encouraging their child's learning and development.

You can make a real difference just by talking, playing, singing and sharing books or activities together.

Come along—you and your child can build communication and numeracy skills, share ideas and have fun through singing, story and play activities.

"I've discovered how much my child learns through play."

"I notice more of the everyday activities we do that surround the topic of maths."

"I loved the ideas and it has made me be more aware of how to support my child."

"It hadn't occurred to me to let my child lead when we are playing"

"My child likes me to read the same story every night – I was really bored before but now I know that it is good for her learning"

Feedback from Eyemouth parents who have attended previous Peep groups.
