

Literacy

Reading

Daily reading in class, working on fluency, expression and developing an awareness of an audience. as well as set reading to be completed at home. Comprehension tasks will reinforce understanding of texts.

Writing

Our focus this term is information reports. The children will be given opportunities to research animals native to Scotland and develop their note taking skills and then using these to present the information in the form of a report.

Spelling

Wraparound spelling lists will be sent home for children to learn and challenge themselves as part of our daily routine.

Listening and Talking

Children will be asked to do prepare a talk about an animal they have researched.

Voyage of Discovery

This term we will be exploring, This is Scotland. through a joint Voyage of Discovery, “**To Scotland and beyond.....**”

We will be learning:

About our place in Scotland through activities in our local area, exploring our community and being able to identify different features and types of houses and how they meet our needs.

Learn about the different land uses and the importance of agriculture in production of foods and how the weather affects our daily life.

Explore different climate zones and compare how climate affects all living things.

Numeracy & Mathematics

We will focus on:

Developing our mental strategies,
Consolidating addition and subtraction to 1000
Multiplication and Division
Problem solving

Shape and symmetry linked to our Voyage of Discovery – Scotland and beyond,,,,
Information Handling – different types of houses, Scottish foods and the weather.
